

STAY OPEN. STAY SAFE. GET FOGGED.

www.best-clean-direct.co.uk

Why you need Sanitisation & Infection Control Services

Germ and bacteria are very quick to spread and settle in tight corners and hidden spots. Disinfecting effectively by hand takes a very long time and requires prohibitive costs. In addition, there are many areas that are difficult to disinfect properly, such as computer keyboards and telephones in an office or checkouts in supermarkets or shops.

We reach these targeted areas evenly, right down to the most hidden points.

Venues we cover

- ✔ Leisure Facilities
- ✔ Educational Establishments
- ✔ Offices
- ✔ Transportation
- ✔ Hairdressers
- ✔ Care Facilities

With COVID-19 still being with us this year and new variants appearing, one thing is for sure that disinfectant fogging is here to stay and the only way of thoroughly sanitising all types of premises. Ensure that your business stays open during these challenging times.
